OUR VISION

Respecting the experience of the past, we reflect the sensibilities of traditional teaching to our work discipline. We take advantage of the benefit of technology and take a stand open to innovations to improve our designs and meet the needs of the modern world. In this way, we can produce quality and effective solutions in every field our company is active, by considering and even developing existing systems.

OUR MISSION

Our company, which has been operating since 2010, aims to produce quality designs and serve the needs of our society by using efficient and effective systems by combining the technological potential of the modern world with the traditional teaching that mankind has gained throughout history.

HEALTH SURVEILLANCE

Radiology Specialist, Radiology Technician and Audiometer Specialists are working in mobile health vehicles. We carry out screening tests and measurements which are important in Occupational Health and Safety services, required to be done in employee new-hiring (Job Compliance) examinations and periodic examinations.

These tests:

Blood Count (Hemogram),
Chest X-ray (PA. AC. Graph),
Pulmonary Function Test (PFT)
Hearing Test (Audiometry)

Scanning examinations and measurements are very important for employers to avoid legal issues and compensation. Provides preliminary information about the health status of employees before they start working. During the work of the employees, it is also possible to conduct control examinations and measurements without loss of job when the workplace physician considers it necessary.

Integr96, has inspected the documentation presented concerning the product of the company whose name and address mentioned above according to the reference directive and/or reference standards. Suitability of product and documentation to the directive and standards are under the responsibility of the company. However, in case the product is subject to more than directives and standards which are mentioned above when the company fulfills conditions of other directives and standards, then it can attach CE conformity marking and arrange conformity declaration. This attestation has been issued as per company request. This attestation does not abrogate the compulsory obligation of the manufacturer to issue the declaration of conformity.

Integr96, yukarıda bahsi geçen firmanın ürüne ilişkin sunduğu dokümantasyonu yukarıda belirtilen referans yönetmelik ve / veya standartlara göre incelemiştir. Yönetmeliğe ve standartlara göre ürünün ve dokümantasyonun uygunluğu firmanın sorumluluğundadır. Ürünün diğer ilgili yönetmelik ve standartlara tabii olması durumunda diğer yönetmelik ve standartların şartlarına da firma yetine getirilmesinde yukarıda belirtilen CE uygunluk işareti ürün üzerine istisnai olarak ve uygunluk beyanı düzenlenilebilir. Bu onay firmanın isteği üzerine verilmiştir. Bu onay üreticinin uygunluk beyanı düzenleme zorunluluğundan ortadan kaldırmaz.

SCOPE

Main Activities:

Joint Health and Safety Unit services according to Law No:6331;

- Provide Occupational Physician
- Provide Safety Expert
- Provide Occupational Nurse

Supporting Activities:

- Risk Assessment
- Emergency Action Plan
- Occupational Health and Safety Trainings
- Medical Reports
- Health and Hygiene Inspections
- Site Auditing and Reporting

TRAINING

GENERAL

- Labour law induction
- Legal rights and responsibilities of employees,
- Workplace cleanliness and housekeeping,
- Legal consequences arising from accidents at work and occupational diseases.

HEALTH

- Reasons of occupational illness,
- Implementation of the principles of disease prevention and protection techniques,
- Biological and psychosocial risk factors,
- Basic first aid.

TECHNICAL

- Chemical, physical and ergonomic risks,
- Manual handling, pushing and pulling,
- Flashing, exploding, fire and fire protection,
- Safe using of working equipment,
- Display screen equipment (DSE),
- Electrical hazard, risks and precautions,
- Implementation of the technical principles of the causes and prevention of occupational accidents,
- Health and safety signs,
- Usage of personal protective equipment

MEBEO

CONSULTING AS.

MEBEO TRAINING CONSULTANCY CONSTRUCTION CO. LTD. has been established at 2013 to provide HSE consultancy for industrial projects.

- Providing High Qualified HSE staff particularly for Energy Industry
- Emergency Response services covering Red-Line ambulance, mobile medical container, doctor, paramedic etc.
- Conducting of site audits, measuring compliance against Law 6331.
- Providing HSE trainings.

MEBEO TRAINING CONSULTANCY
CONSTRUCTION CO. AS.

SCOPE

MEBEO TRAINING CONSULTANCY CONSTRUCTION CO. AS. provide HSE consulting services in both in-country and international projects or the establishment of Joint Health&Safety Unit (OHS / HSE) and for complete consultancy for the entire project. The company also provides services, such as:

- Preparation of pre-qualification file for bidding process,
- Implementing PTW system and trainings
- Establishment of H&S string committee, organizing meetings, follow-up decisions and monitoring
- Developing H&S plan, procedure, instructions, handbooks,

- Establishing of monthly reporting system and H&S statistic preparation and follow(KPI)
- H&S Risk Analysis, Emergency Plans,
- Assigning and train emergency response team members,
- Provide required emergency equipment,
- Advising of personal protective equipment standards.
- Design and provide fall protection net,
- Scaffolding erection and inspection,
- Conducting lifting awareness trainings, tandem lifting plan and processing of the plan.
- Providing local and foreign H&S man power, qualification of those man power; who work within international projects, speaking advanced English and certified by BSC - NEBOSH - IOSH - OSHA etc.
- H&S and environmental site auditing and inspections,
- Practical and theoretical working at high training,
- H&S training in English and Arabic language,
- IOSH training,
- Partnership providing NEBOSH training,
- Health and safety surveillance,
- Work place comfort measurement.

MEBEO TRAINING CONSULTANCY
CONSTRUCTION CO. AS.

TRAINING

- Health and safety awareness
- Health and safety culture
- Hazard identifications,
- Work in confined spaces,
- Safe working with heavy equipment,
- Slip, fall, trip,
- Chemistry of fire,
- Excavation safety,
- Rigger training,
- Signalman training
- Electrical hand tools
- Lifting operations
- Manuel handling
- Ergonomics
- Risk assessment
- Personal protective equipment's
- Working at height
- Scaffolding safety
- Emergency management
- Evacuation and rescue
- PTW

Medical First Aid Training

Advance Training in Fire Fighting Course

Proficiency in Survival Craft and Rescue

MEBEO TRAINING CONSULTANCY
CONSTRUCTION CO. AS.

- Personal Survival Techniques Course
- Proficiency in Survival Craft and Rescue Boats
- Fire Prevention and Fire Fighting Course
- Advance Training in Fire Fighting Course
- Elementary First Aid
- Medical First Aid Course
- Industrial Security Course
- Hazmat Course
- NEBOSH International General Certificate in Occupational Health and Safety
- NEBOSH HSE Introduction to Incident Investigation
- Accident Investigation and Root Cause Analysis
- NEBOSH Technical Certificate in Oil and Gas Operation Safety

HEALTH

SITE HEALTHCARE SERVICES

- Establishment and supply of necessary materials
- Providing Clinic Container
- Doctor supply
- Nurse supply
- Ambulance supply
- Health screening tool
- Supply of medicines and supplies
- Supply of vaccines

PERIODIC INSPECTION

Planning, implementation and reporting of Periodic Inspection of mandatory work equipment

Lifting Tools Periodic Inspections

- Crane and Caraskal Periodic Control
- Forklift Periodic Control (Diesel, Electric, Manual Stackers and Pallet Trucks)
- Tower Crane Periodic Control
- Mobile Crane Periodic Control
- Platform Periodic Control (Columnar Work, Alimak, Suspended Scaffolding and Scissor Lift - Boom Platforms)
- Lift Periodic Control (Vehicle Lift Lift, Jack etc.)
- Elevator (Man and Load Bearing)

Periodic Inspection and Measurement of Electrical Installations

- Grounding Measurement
- Lightning Rod Measurement
- Cathodic Protection Measurement
- Internal Installation Compliance Check
- Dashboard Controls
- Leakage Current Measurements
- Insulation Resistance Control Periodic Inspections of Machines and Workbenches
- Machine and WorkBench Periodic Controls

CoverEdge

TEMPORARILY EDGE PROTECTION SYSTEMS

The CoverEdge® Barrier System was developed to mitigate the 'Fall from Height' and 'Dropped Object' risks that can be found in almost all industries. This unique barrier system can be used to provide temporary or permanent protection for stairways, floor edges, etc. and is suitable for both indoor and outdoor application. Additionally, with the patented ForkAI® barrier section, material handling and transferring activities can be carried out safely without the need to remove the safety barrier.

CoverEdge® barriers have been engineered to provide a robust, practical, versatile solution and are manufactured with high quality materials, complying with national and international regulations and standards. Currently, CoverEdge barriers hold Certificates of Conformity to U.S Federal OSHA Standards, Canadian Federal and Provincial OHS Regulations, and are recognized with the Turkish Standards Institute.

CoverEdge® barrier systems are easy to ship, install, dismantle and functional for multiple applications. CoverEdge® Barrier Systems are being implemented by leading companies who are serious about eliminating injuries and fatalities caused by dropped objects and falling from heights.

RoF-18-0121-Temporary Perimeter Railing Test Report
Page 20 of 32

6. Conclusion:

The COVEREDGE temporary perimeter guardrail system load tested in the specific configuration defined in this report satisfied the load resistance requirements prescribed in the stated Provincial Regulations and US Federal OSHA Standard pertaining to temporary guardrail system. It is our opinion that the aforementioned temporary guardrail system meets the applicable strength requirements of the said Regulations and Standards When installed in accordance with the installation specifications of the manufacturer.

The COVEREDGE perimeter railings system type covered by this report shall be installed in strict accordance with the manufacturer's instructions and requirements of local Occupational Health and Safety regulations. The components of the system shall be inspected prior to installation for any signs of defect, damage or distress. Any component found to be defective shall be removed from service immediately. Installed systems shall be inspected, prior to placing in service, for correct installation in accordance with manufacturer's instructions. Subsequent periodic inspections shall be carried out as needed for signs of damage, tampering or any other signs of distress.

A copy of the inspection reports shall be maintained in an inspection logbook during the entire time the perimeter railing is in service at a project.

TANAP

TANAP will run from the Turkish border with Georgia, beginning in the Turkish village of Türkgözü in the Posof district of Ardahan, will run through 20 provinces. From this point, the TAP Pipeline will connect to convey natural gas to European nations. Two off-take stations are located within Turkey for national natural gas transmission, one located in Eskişehir and the other in Thrace. With 19km running under the Sea of Marmara, the main pipeline within Turkey reach a total of 1850km, along with off-take stations and aboveground installations, with their numbers and properties 7 compressor stations, 4 measuring stations, 11 pigging stations, 49 block valve stations and 2 off-take stations to supply Turkey's national natural gas network.

Project Cost: 12.000.000.000 \$

TEKFEN İNŞAAT

TANAP COMPRESSOR AND STATIONS PROJECT

Seven compressor stations will be constructed (2 at First Stage, 4 at Second Stage, and 77 at Third Stage) at intermediate points to fulfil the pressure requirements. Eskişehir branch pipeline shall transport the gas from the Eskişehir Compressor Station (CST-5A) to the tie-in point into the BOTAS system which is located close to the existing BOTAS Station in Eskişehir. A separate compressor train (CST-5AL) is foreseen for gas supply to BOTAS in CST-5A.

THE TANAP PROJECT: SCADA/ TELECOMMUNICATIONS SYSTEM ENGINEERING, PROCUREMENT AND CONSTRUCTION (EPC) WORKS

ABB has won a large contract for the 1,850 km Trans-Anatolian Natural Gas Pipeline (TANAP) to bring Azerbaijan's natural gas directly to Europe. ABB signed the contract with TANAP and the order is booked in the fourth quarter.

ABB will deliver the control system, telecommunications, pipeline monitoring, security systems including fiber-optic cables to transmit data along the pipelines. The software solutions will integrate the supervisory control and data acquisition (SCADA) systems and the telecommunications that control the gas flows, detect leakages or intrusions and make closed circuit television (CCTV) coverage available for safety and security purposes.

950 MW COMBINED CYCLE POWER PLANT

Kırıkkale CCPP Project is located within the municipality of Kılıçlar in the Yahsihan District of the province of Kırıkkale, 15 kilometers from Kırıkkale City Centre and 50 kilometers east of Ankara.

The Plant will be operated and maintained by Nomac Enerji Üretim İşletme Ve Bakım Hizmetleri Limited Şirketi, a separate service company under an O&M Agreement ("O&M Agreement") established by First National Operation & Maintenance Company LLC ("NOMAC").

PRESIDENTIAL LIBRARY

A library and a Cultural Center are being built on the land of the Presidential Complex in Ankara. The complex will be the largest library in Turkey and planned to remain open for twenty-four hours. There will be around five million books. The researchers will be able to reach the world's leading libraries with digital connections as well as the resources they need in a large number of workplaces.

REFERENCE LETTER

To Whom It May Concern,

We are TEKFEN İNŞAAT VE TESİSAT A.Ş. ("TEKFEN"), hereby confirm that; MEBEO EĞİTİM DANIŞMANLIK İNŞAAT SANAYİ VE TİCARET A.Ş. ("MEBEO") has fulfilled a satisfactory the Ambulance Rental and 7/24 Medical Team Supply Services ("Service") for all Stations (MS2, MS3, MS4 Metering Stations and CS1, CS5 Compressor Stations) under scope of Trans-Anatolian Natural Gas Pipeline Project (TANAP).

We are very pleased with the quality of Services provided by MEBEO and we hereby express our thanks to the MEBEO for its high-quality Services and recommend the firm to all who would deal with large scale industrial projects.

Yours faithfully,

Mehmet Yasin BEKMEZCİ

Project Manager

COMPLETED PROJECTS CERTIFICATES

GAMA POWER SYSTEMS ENGINEERING AND CONTRACTING, INC.

To whom it may concern,

This work experience certificate has been issued upon the request of the below mentioned Contractor.

The issuance and execution of this Certificate shall in no way release the Contractor from its continuing obligations with respect to the completion of any work remaining, undone, punch list work, remedial work, warranty and guaranty work, and any other obligations of the Contractor to us. This certificate does NOT present that all conditions stipulated in the Contract have been fulfilled, and therefore we do not hereby waive, release and relinquish any and all rights, claims and the like, whether arising at law, under our Contract, in equity or otherwise against the below mentioned Contractor.

The term "Contractor" shall be deemed to mean and refer to the Contractor and its agents, representatives, employees, directors, and all those acting on their behalf.

TÜRKÇE

İlgili kişi/makama,

İşbu "İş Deneyim Belgesi" aşağıda belirtilen Yüklenici'nin talebi üzerine düzenlenmiştir.

İşbu Belgenin düzenlenmesi, hiçbir şekilde Yüklenici'yi, bakiye, tamamlanmamış, eksik işleri, düzeltici işlemleri, güvence ve/veya garanti işleri ile ilgili olarak devam eden yükümlülüklerini ve bize karşı her türlü diğer yükümlülüklerini yerine getirmekten muaf tutmaz. Buna binaen, aşağıda belirtilen Yüklenici'ye karşı, gerek kanun, sözleşme veya haksız fiilden gerekse hakkaniyet uyarınca ve diğer her türlü sebeple doğan veya doğabilecek, hiçbir hak ve talebimizden vazgeçmediğimizi ve/veya feragat etmediğimizi bildiririz.

"Yüklenici" kelimesi; Yüklenici'nin yanı sıra, Yüklenici'nin temsilcilerini, vekillerini, çalışanlarını, müdür ve üyelerini ve belirtilenler adına hareket eden her türlü kişiyi kapsamaktadır.
